

Postdoctoral studies at Ben-Gurion University

The Daniel Sternheimer fellowship At the center for advanced studies

The Center for Advanced Studies in Mathematics at Ben-Gurion University of the Negev is pleased to offer the Daniel Sternheimer fellowship for postdoctoral studies at the Department of Mathematics at Ben-Gurion University of the Negev

Preference will be given to Japanese postdocs.

Faculty research expertise include:

• Non commutative algebra and Quantum groups • Set Theory • Logic and Model theory • Number Theory • Automorphic Representations • Field Theory • Algebraic Geometry • Topology • Lie Groups • Ergodic Theory and Dynamical Systems • Complex Analysis • System Theory • Operator Theory • Functional Analysis • Operator Algebras • Geometry of Banach Spaces • Global Analysis • Ordinary and Partial Differential Equations • Applied Mathematics • Probability Theory • Combinatorics and Algorithms • Mathematical Education •
