Literature

Otto Bretscher. Linear Algebra with Applications, Prentice Hall, 2008. ISBN 0136009263.

Schedule

The following schedule is tentative. Please check the website for updates.

Lecture	Date	Topic	Chapters
1	April 16	Image and Kernel	3.1
2	April 23	Subspaces of \mathbb{R}^n	3.2
3	April 30	Dimension	3.3
4	May 7	Coordiantes	3.4
5	May 14	Linear Spaces and Transformations	4.1, 4.2
6	May 21	The Matrix of a Linear Transformation	4.2, 4.3
7	May 28	Midterm Exam	
8	June 4	Orthogonal Bases	5.1, 5.2
9	June 11	Orthogonal Transformations	5.3
10	June 18	Eigenvalues and Eigenvectors	7.1
11	June 25	Characteristic polynomials	7.2
12	July 2	Eigenbases	7.3
13	July 9	Diagonalization	7.4
14	July 16	Review	3,4,5,7
15	July 23	Final Exam	

Examination

There will be a midterm exam on May 28, 2013 and a final exam on July 23, 2013. The midterm exam will give a maximum of 40 points and the final exam a maximum of 50 points. In the beginning of each lecture except the first, the midterm exam and the final exam there will be a small quiz on problems given the lecture before. From these a maximum of 10 points can be earned. The final grade will be determined by the total amount of points obtained according to the following scale: S: 90-100, A: 80-89, B: 70-79, C: 60-69, F:0-59.
