## UK-Japan Mathematical Forum

# Mini study group on Mathematics in Industry

"Study Groups with Industry" began in Oxford in 1968. They are now well-established in the United Kingdom, and internationally, as a model of academic-industry cooperation. Professor Chris Budd will give an introduction to "Study Groups with Industry", followed by a Mini study group with sample problems. Students and researchers, and anyone with an interest in academic-industry cooperation, are welcome to take part.

## March 29 / 2011
