Mathematics Tutorial Ia

Registration Code	0062411	**Credits**	1.0
Course Category	Open		
Term (Semester) / Day / Period	G-I (1st year, Fall Semester) / Tue. / 4 （14:45～16:15）		
Instructor	RICHARD Serge Charles		
Target Schools (Programs)	La(S)・Ec(S)		

●Objectives of the course
The aim of this course is to deepen the understanding of calculus and to cultivate the ability to apply mathematical knowledge. The course is mainly intended for students taking Calculus I.

●Course prerequisites
Some basic knowledge on calculus from high school is assumed, including differentiation and integration of polynomial functions.

●Course contents (will not appear on the syllabus booklet but on our website)
Exercises sheets will be provided each week before the tutorial, and will be available on the web site of the course. Homework will be due every week during the tutorial. Solutions to the exercises will then be posted on the web site.

●Evaluation methods
Your final grade will be determined by homework (50%) and quizzes (50%).

●Notice for students
This course uses the course withdrawal system. To withdraw from the course and obtain the grade Absent the student must submit a written Course Withdrawal Request before the end of November. After that time any student who participated in any part of the examination will be graded S, A, B, C or F.
