|   |  |
|---|--|
| 講義の目的とねらい   | Course purpose                           |
| The course is mainly intended for students taking Calculus II. Students will have the opportunity to manipulate the various notions introduced during the lectures.                               |  |
| 履修要件  | Prerequisite                             |
| Some notions on functions of one variable, as seen in Calculus I. A basic knowledge of linear algebra will be an asset.   |  |
| 履修取り下げの方法について   | How to Apply for Course Withdrawal       |
| <「履修取り下げ届」提出の要・不要 Necessity/Unnecessity to submit "Course Withdrawal Request Form"><br>Necessary<br><条件等 Conditions><br>Submit the Course Withdrawal Request Form before the end of the semester. |  |
| 成績評価  | Grading                                  |
| The final grade will be determined by homework (50%) and quizzes (50%). The grading scale will be A+, A, B, C, C-, F.   |  |
| 不可 ( F ) と欠席 ( W ) の基準  | Criteria for "Absent(W)" & "Fail" grades |
| If a student does not submit a Course Withdrawal Request Form by the designated period, the grade is " F ". When the Course Withdrawal Request Form is submitted, the grade is " W " .            |  |

Check the Course Timetable.  
Check the website of this course before the first tutorial session.

到達目標 Goal

The aim of this course is to deepen the understanding of calculus and to cultivate the ability to apply mathematical knowledge.

授業内容 Content

Exercises sheets will be provided each week before the tutorial, and will be available on the web site of the course.  
Homework will be due every week during the tutorial.

教科書 Textbook

Free reference books and lecture notes will be available on the website of the course.

参考書 Recommended reading

Notes provided during the lectures of Calculus II.
